CONTENTS OF VOLUME 152

No. 1, JANUARY 1948

Weight-Carrying Capacity and Excitability of Excised Ciliated Epithelium. *W. C. Stewart* 1

Immediate Effects of Ether and Nembutal upon Some of the Blood Components in the Cat. *Dietrich C. Smith, Robert H. Oster, Linda Snyder and Leah M. Proutt* 6

Composition of the Regenerating Liver after Partial Hepatectomy in Normal and Protein-Depleted Rats. *F. N. Gurd, H. M. Vars and I. S. Ravdin* 11

Protection Against Acceleratory Forces by Carbon Dioxide Inhalation. *L. Van Middlesworth and R. F. Kline* 22

Clearances as a Measure of Renal Function in the Rat. *Richard W. Lippman* 27

Volume Measurement of the Islets of Langerhans and the Effects of Age and Fasting. *R. E. Haist and E. J. Pugh* 36

Application of the Saturation Principle to the Estimation of Functional Hepatic Mass in Normal Dogs. *Morton F. Mason, George Hawley and Alice Smith* 42

Arterio-Venous Anastomoses in Liver, Spleen, and Lungs. *M. Prinzmetal, Edward M. Ornitz, Jr., Benjamin Simkin and H. C. Bergman* 48

Some Actions of Potassium Chloride at the Neuromuscular Junction. *M. Altamirano and F. Huidobro* 53

Exchange and Distribution of Fluid in Dehydration in the Dog. *Elizabeth E. Painter, Joseph H. Holmes and Magnus I. Gregersen* 66

Effects of Isotonic Solutions and of Sulfates and Phosphates on the Distribution of Water and Electrolytes in Human Blood. *P. M. Hald, A. J. Heinsen and J. P. Peters* 77

Effect of Acetylcholine, Caffeine and Alkaloids on Activity of Muscle Adenosinetriphosphatase. *Clara Torda and Harold G. Wolff* 86

Renal Excretion and Volume Distribution of Some Polyethylene Glycols in the Dog. *C. Boyd Shaffer, Frances H. Critchfield and Charles P. Carpenter* 93

Influence of Thyroid Status on the Electrocardiogram and Certain Blood Constituents of the Sheep. *D. N. Mullick, B. V. Alfredson and E. P. Reineke* 100

Measurement of Alveolar Pressure in Human Subjects. *A. B. Otis and D. F. Proctor* 106

Reversible Cellular Permeability Alterations in Disease. In Vivo Studies on Sodium, Potassium and Chloride Concentrations in Erythrocytes of the Malarious Monkey. *Richard R. Overman* 113

Causes of Skin Cooling in Pressure Breathing, Deep Inspiration and Deep Expiration. *Vincent De Lalla, Jr* 122

Pituitary-Adrenal Cortical Antagonism to Estrogenic Stimulation of the Uterus of the Ovariectomized Rat. *Clara M. Szego and Sidney Roberts* 131

Cardiovascular Response to Posture and the Problem of Faintness and Syncope in the Semi-Starved Individual. *Henry Longstreet Taylor, Austin Henschel and Ancel Keys* 141

Physiological Mechanism of Experimental Goitrogenesis. *D. P. Sadhu* 150

Pulse Rate Responses to Acceleration under Reduced Barometric Pressure. *L. Van Middlesworth* 157

Physiological Studies of the Effects of Intermittent Positive Pressure Breathing on Cardiac Output in Man. *Andre Cournand, Hurley L. Motley, Lars Werko and Dickinson W. Richards, Jr* 162

Effect of Xanthopterin on Cell Proliferation in Bone Marrow Cultures. *Earl R. Norris and John J. Majnarich* 175
Xanthopterin in Rat Anemia Produced by Sulfathiazole. *Earl R. Norris and John J. Majnarich* 179
Maintenance of Vasodilatation of the Extremities of Normal Individuals for a Prolonged Period by the Ingestion of Two to Four Substantial Meals in Close Succession. *Grace M. Roth and Charles Sheard* 183
Distribution of Estradiol between Serum and Red Cells. *Fritz Bischoff and Robert E. Katherman* 189
Hereditary Obesity and Temperture Regulation. *Margaret Lindsay Turner* 197
Physiologic Icterus of the Newborn. *Arthur Loewy and L. Willard Freeman* 205
Production of Ketosis by the Growth and Adrenocorticotropic Hormones. *Leslie L. Bennett, Ruth E. Kreiss, Choh Hao Li and Herbert M. Evans* 210
Effect of Inorganic Phosphate on the Glycolysis of Human Blood. *A. Jean Heinsen* 216

No. 2, FEBRUARY 1948

Neural Responses and Reactions of Heart of Human Embryo. *W. E. Garrey and S. E. Townsend* 219
Experimental Hypothermia and Rewarming in Dog: Recovery after Severe Reduction in Body Temperature. *Hans O. Haterius and George L. Maison* 225
Observations on Energy Metabolism and Water Balance of Men Subjected to Warm and Cold Environments. *C. R. Spealman, William Yamamato, E. W. Bixby and Michael Newton* 233
Reactions of Men Exposed to Cold and Wind. *Steven M. Horvath* 242
Effects of Acute Exposure to Simulated Altitudes on Dextrose Tolerance and Insulin Tolerance. *Vincent C. Kelley and Roger K. McDonald* 250
Histochemical Study of 'Alkaline' Phosphatase of Kidney of Castrated Mouse after Stimulation with Various Androgens. *Charles D. Kochakian* 257
Vitamin A, Iodide and Thyrotropic Hormone Content of Anterior Pituitary. *D. P. Sadhu* 263
Shrinkage of Lymphatic Tissue in Rats Following Injections of Insulin. *Isolde T. Zeckwer* 267
Interrelationships of Spermatozoa Count, Hyaluronidase Titer and Fertilization. *Bennett Sallman and Jorgen M. Birkeland* 271
Effects of Certain Factors upon Level of Plasma Phosphatases of Breeding Bulls. *J. T. Reid, G. M. Ward and R. L. Salsbury* 280
Utilization by Dogs of Nitrogen of Heated Casein. *Elsie O. Weast, Mary Groody and Agnes Fay Morgan* 286
Observations Concerning Effects of (1) Sodium Salicylate and (2) Sodium Salicylate and Glycine upon Production and Excretion of Uric Acid and Allantoin in Rat. *Meyer Friedman* 302
Effect of Folic Acid and Liver Extract on Serum and Red Cell Cholinesterase Activity. *Anne M. Kunkel, Stephen Krop and W. C. Wescoe* 309
Blood Pressure Changes in Response to Electrical and Chemical (Acetyl-Beta-Methylcholine) Stimulation of Cerebral Cortex in Dogs. *William F. Kremer* 314
Specific Sympathomimetic Substance in Brain. *W. Raab* 324
Coronary Sinus Catheterization for Studying Coronary Blood Flow and Myocardial Metabolism. *W. T. Goodale, Martin Lubin, J. E. Eckenhoff, J. H. Hafkenschiel and W. G. Banfield, Jr.* 340
Measurement of Coronary Blood Flow by Nitrous Oxide Method. *J. E. Eckenhoff, J. H. Hafkenschiel, M. H. Harmel, W. T. Goodale, M. Lubin, R. J. Bing and S. S. Kety* 356
Normal Human Arterial Oxygen Saturation Determined by Equilibration with 100 Per Cent O_2 *in vivo* and by the Oximeter. *Julius H. Comroe, Jr. and Patricia Walker* 365

Studies of Pulmonary Circulation at Rest and During Exercise in Normal Individuals and in Patients with Chronic Pulmonary Disease. *R. L. Riley, A. Himmelstein, H. L. Motley, H. M. Weiner and A. Cournand* 372
Effect of Body Temperature Change on the Circulation Time in Chicken. *S. Rodbard and A. Fink* 383
Quantitative Studies on Comparative Activity of Calcium and Chemically Related Ions on Coagulation of Blood. *Mario Stefanini and Armand J Quick* 389
Limitations of Renin-Hypertensin Hypothesis. *E. Mylon, M. Lund and J. H. Heller* 397
Effect of Intravenous Injection of Magnesium Chloride on Body Temperature of Unanesthetized Dog, with Some Observations on Magnesium Levels and Body Temperature in Man. *Fred C. Heagy and Alan C. Burton* 407
Effect of Pulmonary Artery Ligation on Histamine Content of Lung, with Observations on Concomitant Structural Changes. *Gustaf E. Lindskog and Alfred Gilman* 417
Brain and Muscle Potassium in Relation to Stressful Activities and Adrenal Cortex Function. *Hudson Hoagland and David Stone* 423
Conduction Rates and Dorsal Root Inflow of Sensory Fibers from Knee Joint of Cat. *Ernest Gardner* 436
Urinary Excretion of Ascorbic Acid by Guinea Pigs with Healing Skin Wounds. *Mary Elizabeth Reid* 446
Roentgenographic Study of Motility of Gastro-intestinal Tract of Guinea Pig. *Mary Elizabeth Reid and William C. White* 455
Effect of Feeding Liver on Rate of Regeneration of Liver in Partially Hepatectomized Rats. *R. W. Denton and A. C. Ivy* 460
Metabolic Recovery Rates from Exercise after Alteration of Alkaline Reserve. *William E. Berg* 465

No. 3, MARCH 1948

Effective Osmotic Pressure of the Plasma Proteins and Other Quantities Associated with the Capillary Circulation in the Hindlimbs of Cats and Dogs. *John R. Pappenheimer and Armando Soto-Rivera* 471
Force and Time Elements in Circulatory Changes Under Acceleration: Carotid Arterial Pressure Deficiency Areas. *V. A. Pertzoff and S. W. Britton* 492
Effect of Sympathectomy on Blood Flow in the Human Limb. *Irwin D. Stein, Karl Harpuder and Jacob Byer* 499
Effects of Exercise and of Some Other Influences on the Renal Circulation in Man. *H. L. White and Doris Rolf* 505
Duration of Renal Ischemia Required to Produce Uremia. *Paul B. Hamilton, Robert A. Phillips and Alma Hiller* 517
Effect of 20, 60 and 120 Minutes of Renal Ischemia on Glomerular and Tubular Function. *R. A. Phillips and P. B. Hamilton* 523
Traumatic Shock XVI: Amino Acid Metabolis in Hemorrhagic Shock in the Dog. *Arnold M. Seligman, Benjamin Alexander, Howard A. Frank and Jacob Fine* 531
Influence of Hypotension on Coronary Blood Flow, Cardiac Work and Cardiac Efficiency. *J. E. Eckenhoff, J. H. Hafkenschiel, E. L. Foltz and R. L. Driver* 545
Arterial Pressure Pulse Waves in a Patient with Coarctation of the Aorta. *Morton Galdston and J. Murray Steele* 554
Arterial Hypertension in the Chicken. *R. Lenel, L. N. Katz and S. Rodbard* 557
Validity of T-1824 in Plasma Volume Determinations in the Human. *William N. Campbell, Andrew Sokalchuk and Robert Penman* 563
Serum Ac-Globulin: Formation From Plasma Ac-Globulin; Role in Blood Coagulation; Partial Purification; Properties; and Quantitative Determination. *Arnold G. Ware and Walter H. Seegers* 567
Influence of Heparin on the Optical Density of Clotted Plasma. *R. H. K. Foster* 577

Importance of Pressure Factors in the Genesis of Pulmonary Edema Following Vagotomy. *A. H. Sussman, A. Hemingway and M. K. Visscher* 585
An Attempt to Produce Pulmonary Edema by Increased Intracranial Pressure. *A. Surtshin, L. N. Katz and S. Rodbard* 589
Retention of Sex Functions after Isolation of the Pars Anterior by Extirpation of the Hypophysial Stalk. *Carlyle G. Breckenridge and Allen D. Keller* 591
Effect of Adrenalectomy upon the Tolerance of the Eviscerated Rat for Intravenously Administered Glucose. *Dwight J. Ingle and James E. Nezamis* 598
Effect of Adrenalectomy Upon the Urinary Excretion of Glucose and Nonprotein Nitrogen in the Partially Depancreatized, Force-Fed Rat. *Dwight J. Ingle and Mildred C. Prestrud* 603
The Influence of a Previous Injection of Epinephrine Upon the Diabetogenic Effect of Alloxan in Rabbits. *R. Carrasco-Formiguera and Isabel Escobar* 609
Excretion of Urinary 17-Ketosteroids by the Male Rabbit. *Donald J. Kimeldorf* 615
Inhibition of Epinephrine Action in Severe Hypoxemia. *A. Surtshin, S. Rodbard and L. N. Katz* 623
Blood Glutathione in the Bovine. *J. T. Reid, G. M. Ward and R. L. Salsbury* 633
Effect of Administering Agenized Amino Acids and Wheat Gluten to Dogs. *G. W. Newell, S. N. Gershoff, F. H. Fung and C. A. Elvehjem* 637
The pH of Gastric Mucous Secretion. *Franklin Hollander, Frances U. Lauber and Julius J. Stein* 645
Further Studies of Xanthopterin and Other Pteridines in Bone Marrow Cultures. *Earl R. Norris and John J. Majnarich* 652
Reduction of Central Hyper-Irritability Following Block Anesthesia of Peripheral Nerve. *Orr E. Reynolds and Hal C. Hutchins* 658
Rate of Recovery of Temperature Regulating Responses After Ether Anesthesia. *Allan Hemingway* 663
Postural Changes in Vital Capacity with Differential Cuff Pressures at the Bases of the Extremities. *Gilbert S. Campbell and R. Bryce Harvey* 671
Alveolar Gas Changes During Breath Holding. *A. B. Otis, H. Rahn and W. O. Fenn* .. 674
Metabolic Changes of Blood and Tissue Gases During Asphyxia. *Florence J. Herber* .. 687
Observations of Arterial Oxygen Content in Children During the Inhalation of Air and and 100 Per Cent Oxygen. *Sylvia N. Preston and Nelson K. Ordway* 696
